Message from the Trustee

Shri Chunibhai Haribhai Gajera

“Education is the only path that can lead us to the light of knowledge and wisdom. It is the only force that can liberate mankind from ignorance and deliver us from gloom of hopelessness to the zenith of hope”.

Dear Parents and Learners,

I am extremely happy to share some of my ideologies on this page. I have experienced the difficulties of a common man. I know the basic needs of men and the difficulties endured by the underprivileged and downtrodden. I do strongly believe that Education is the only weapon that can pave the way for such people to uplift themselves. Therefore enable every child to get good Education, Hard work will always reward the doer. I want to impart meaningful education with much stress to our Indian culture which is globally respected. “One Happiness” is our motto.

Laxmi International School, Sarigam

Gajera Group of Schools will stand and serve ever to this motto. Children are our top priority and we wholeheartedly support and expect every child to excel. We believe in creating a culture within the school where our parents and students know us, like us, and most importantly, trust us. Our Educators know their learners well and encourage each of them to reach their full potential and achieve their goals. We want every student here to have the opportunity to learn about themselves, and the world and to shape and develop the role they will play in the future.

The inspirational leadership team at Gajera Group of Schools aims to achieve our vision for all learners. Spirituality at a young age and Discipline are the two major issues of the nation which no school nurtures to the fullest our focus is on this and the secondary thing for us is to update the students with Technology and Communication. I wish that children should learn the latest technologies with knowledge of the application. We expect our children to do their best academically and we also desire that they have every opportunity to explore their potential through sports, the Arts, Drama, Music, Life Skills and Global Perspectives. During the year, I hope that we will work together to provide the learners of the Gajera Group of Schools with the best possible opportunities in preparing them to be global citizens ready to master the challenges of the 21st Century. As the Managing Trustee, it is important to me that everyone who steps through our doors – our staff, learners, and parents are excited to be here with high expectations! This attitude enables us to meet the challenges of academic excellence in a positive, fun, and nurturing environment.

HAPPY WORLD HEALTH DAY

World Health Day is celebrated on 7th April every year promoting a healthy lifestyle & awareness about health as well as healthcare.

LIS strives to offer the best of services in the benefit of students. LIS initiated and executed a seminar on the occasion of World Health Day by Dr. Anukul Nikum.

"Adolescence is not only an important period in life, but that it is the only period where one may speak of life in the full sense of the word."

Keeping this tender age of adolescence in mind LIS had organized a seminar on occasion of World Health Day related to the topic "Adolescence to Adulthood"- The healthy way!

Many children grow through adolescence with no ripples whatever and land smoothly and predictably in the adult world with both feet on the ground. Some who have stumbled and bumbled through childhood suddenly burst into bloom. Most shake, steady themselves, zigzag, fight, retreat, pick up, take new bearings, and finally find their own true balance. For all these ups and downs,

Our guest speaker Dr. Anukul Nikum briefed out certain points which was an easy way for our kids to understand.

Students interacted well with our guest speaker and cleared their queries. The seminar was concluded with inspiring words from our Principal sir.

Truly it was a knowledgeable seminar.

House wise meeting- Grade 6 to 12

"When you define a goal, remember that you have the power to realize it."

This calls for proper planning, hard work, strategy and the will to make it happen."

The House system is of great importance to school life. Its function is to inculcate the spirit of healthy competition among students and encourage it within school. Houses may compete with one another at different activities and maybe in other ways, thus providing a focus for group loyalty or teamwork.

To inculcate the same LIS conducted a House wise meeting for grade 6 to 12 students, wherein students were briefed regarding the upcoming CCA activity and competition.

All the houses will have their own inspiring motto. To build a healthy spirit of competition & team spirit amongst students.
