OVERVIEW OF LIS

Laxmi International School offer a wide curriculum in the main learning areas- BASED ON THE CBSE CURRICULUM as per NEP 2020. Students are prepared for other education like- Teamwork, self-expression and personal development that happen outside the classroom. Laxmi International School is CBSE affiliated school & do more than just educating students. Laxmi International School prepare students for life. They develop communication skills, respect for themselves

& self-discipline.

In comparison to the conventionally practiced teaching-learning methods, we at LIS fuse the traditional teaching methods with the modern and thus provide an amalgamation of both. In doing so, aside from the educational excellence that our children are bound to achieve, they also experience a holistic development from the diverse curriculum and the exposure they receive with us. These little tweaks of our educational methods and the resultant positive outcome and feedback is what sets us apart from the crowd.

At LIS we offer relevant engaging 21st Century learning programs that focus on nurturing a global outlook and building confidence along with participation and teamwork. We are concerned with developing the individual talent and intelligence of each child besides allowing them to develop in their own way and not on the basis of preset expectations.

STUDENT AWARDS AND ACHIEVEMENT

‘Comfort is the enemy of achievements’. The first step for winning is the willingness to try and happiness lies in the joy of achievement and the thrill of creative effort. We at LIS focus on overall development of individual child and for that whole year we conduct different kinds of activities from which students can bring out their skill, can shows their talent and different creativity too. Competition can built superb confidence in kids.

For that in the Month of June also we have planned different kind of activities like Music Competition and Swimming Competition

The Music Competition was held on 30th June 2023 and Swimming Competition was held on 26th June 2023 with a huge success with many winners. And the winners of the competition are as follows.

Music Competition

Class 1

1. Khanak Thakor – 1A
2. Dharm Patel – 1A
3. Aditi chavan -1A

Class 2

1st Gyanpeeth House

1. Nihal Karmakar – 2A
2. Aaditya Kumar – 2B
3. Dix Patel – 2B
4. Kavya Khoria -2C
5. Naksh – 2C

2nd Bharatratna House

1. Swar Mahajan – 2A
2. Naksh Kateshiya – 2B
3. Kanak – 2C

3rd Padma House

1. Riyansh Ray – 2A
2. Nirmith Rathod – 2B
3. Trisha Rai – 2B
4. Runjun – 2C

TEACHERS AND STUDENT INTERVIEW

"In the journey of learning, the educator's enthusiasm becomes the wind beneath the wings of students' dreams."

Teaching is my life's calling and passion, and I have been a proud educator at Laxmi International School for 10 years. I teach with enthusiasm, dedication, and responsibility, and I love to inspire my students to learn, grow, and succeed.

I value their holistic development and creativity, and I aim to prepare them for the future with confidence and knowledge. At Laxmi International School, I have found a supportive and nurturing environment where I can make a positive impact on the lives of my students."

Ms. Shubhangini Shettigar

Educator

CCA CLUBS

Co-curricular activities are defined as the activities that enable to supplement and complement the curricular or main syllabic activities. These are very important and crucial part of educational institutions to develop the students personality as well as to strengthen classroom learning.

We at LIS organized various activity for grade 1 to 12 students on 1/07/2023.

National Doctor's Day is celebrated on 1 July in India in the memory of Dr.Bidhan Chandra Roy. This day has been celebrated in India to recognize and appreciate the importance of the doctors' role in society. This also helps the general population to know the importance, significant roles and responsibilities delivered towards the patients care by doctors.

The various activities organized according to the grades are

Grade 1- 2: - Crafting first aid kits for doctor's day

Grade 3 - 5: - Doctor's bag DIY

Grade 6 - 7: - Constructing a doctor's dictionary

Grade 8: - Doctor's Day skit celebrating the medical profession

Grade 9-12: - Debate: - It's battle of minds

SHARE A GOOD NEWS STORY

The National Cadet Corps (NCC) is the youth wing of the Indian Armed Forces with its headquarters in New Delhi, India. It is open to school and college students on voluntary basis as a Tri-Services Organization, comprising the Army, the Navy and the Air Force, engaged in developing the youth of the country into disciplined and patriotic citizens. The soldier youth foundation in India is a voluntary organization which recruits cadets from high schools, higher secondary, colleges and universities all over India. The cadets are given basic military training in small arms and drill. The officers and cadets have no liability for active military service once they complete their course.

In the CATCs, the boys (senior and junior divisions) and girl cadets (senior and junior wings) of a particular NCC unit participate in the 10-day camp. Classes are conducted as per the given syllabus wherein certain aspects of NCC training are taught once again. The camp acts as a refresher training for the cadets and they are also trained in basic skills of survival and emergencies besides other topics.

A camp was held in Rajpipla, Gujarat from 1st July 2023 to 10th July 2023. In which 650 cadets from different schools participated. It is the proud moment for LIS that Miss Hresha Dhodare of class 12-A, received Best shooter and best cadet award at NCC camp and Master Gaurav Lad took top honor for best discipline award at NCC camp.

As it is rightly said "NCC camp: Where discipline meets adventure, and ordinary cadets become extraordinary achievers." Heartiest Congratulations to all the cadets for their extraordinary achievements.

RESOURCE CENTRE

SERVER ROOM

LIS has server room located in I.T hub server room, also known as a data center or computer room, is a dedicated space within a building or facility that is designed to house and operate computer servers and other related equipment.

Server room are enclosed spaces that provide a central point for organizations to manage their network server resources. The design of these environments must take into consideration network connectivity and

power, room temperature control and ventilation, room and rack security, and fire and seismic protection.

A server room provides the operational and environmental components and services to operate enterprise class servers. Generally, a server room might include 10 to several hundred servers. The servers housed in a server room usually include basic CPU components. A server room is a room used to store, power and operate computer servers and their associate components. Students of LIS visited to server room to understand functions and its working.

A server room is an important area for many businesses (and even some homes) that is set up to house computer servers and other equipment. These rooms may have been originally designed specifically for this purpose, or they may have been created as the need for one came up. Either way, a good server room will provide an environment where computer equipment can safely operate in one location so that networking and other activities are made easier and more effective. Understanding the proper setup and configuration of a server room will help with creating and maintaining it effectively.

LEARNING OPPORTUNITY

Providing additional learning opportunities for students is a great way to enhance their education and personal growth.

Involving parents in their children's learning can have a significant positive impact on students' academic performance and overall development.

Family Reading Time promote a family reading initiative where parents and children read together or discuss books they have read. This can help improve literacy and create a positive reading culture at home.

Family reading time creates a positive reading environment at home, where books are valued and celebrated. Regular exposure to books and reading together helps children develop a love for reading, making it a lifelong habit.

Reading together as a family provides an opportunity for parents and children to spend quality time together. It strengthens family bonds and fosters open communication, as discussions about the stories can lead to meaningful conversations.

"Exploring the Power of UCMAS: A Journey to Enhanced Mental Abilities" on World Brain Day

Date- 22-07-2023 Class: 1-8 Saturday

"Embrace the power within; let knowledge flow and minds grow, for on World Brain Day, we celebrate the boundless potential of our greatest asset, the human brain."

www.laxmi.edu.in | f | t | i

World Brain Day Celebration was held on 22th July 2023 on Saturday in Dhvani Auditorium For Students of class 1 - 8. World Brain Day, celebrated annually on July 22, is an international initiative aimed at raising awareness about brain health and neurological disorders. This day was established by the World Federation of Neurology (WFN) to promote education and advocacy on brain-related issues, including prevention, treatment, and research. LIS organized a informative seminar about UCMAS for Classes 1-8 . The Session gave information about importance of Brain development, Mental math's and UCMAS. The students actively participated in the

program.

"Your brain is the organ of your Character, Personality and Intelligence and is heavily involved in making you what you are."

KINDNESS CORNER

Kindness is actually inherent to human beings and we are inculcated with and reminded of it since our childhood. Kindness can be developed through empathy. Empathy is what one feels when they put themselves in others' shoes and kindness is how they express that by helping them and making their lives a little bit easier and better.

Every living being is deserving of kindness. One only needs to have good intentions to be kind, nothing else. When one has good intentions, they are attentive to others; they lend a helping hand, lend a good ear and listen to others' problems, and help someone in need. When you show respect to your elders, it is also an act of kindness.

The world would be a more beautiful place if we were a little kinder to each other. Let's all be kind to one another.

UPCOMING EVENTS

- NATIONAL HANDLOOM'S DAY
- NATIONAL LIBRARIANS DAY
- WORLD SANSKRIT DAY
- INTERNATIONAL YOUTH DAY
- INDEPENDENCE DAY
- RAKSHA BANDHAN

GLIMPSE OF CLASSROOM

Students who have prepared a robot using empty boxes is to showcase their creativity, problem-solving skills, and innovation while demonstrating the principles of robotics and engineering.

1. Design and Construction:
2. Teamwork and Collaboration
3. Presentation and Communication:
4. Creativity and Innovation:
5. Understanding Robotics Concepts:
6. Inspire Interest in STEM:

By achieving these objectives, students have not only gain hands-on experience in robotics but also developed valuable skills
