TEACHER'S INTERVIEW

Mehra

M.Sc B.Ed MBA

""The art of teaching is the art of assisting discovery."

My goal as a teacher is to improve my student's education and help them grow knowledgeably. I like to see students at different levels develop with each other and learn. I want to challenge the students and watch them grow to their highest level of education. Therefore, having the students in groups is the best educational strategy I like to use a lot. I want my students to have freedom with whatever creativity they want, and to allow them to express themselves at any time. With this freedom students will be able to experiment with likes and dislikes and be able to figure their weaknesses and strengths.
