## Message from the Trustee

## Shri Chunibhai Haribhai Gajera

### **Gajera Group of Schools are here to open the windows of true education.**

Education is the basis of all progress. Its purpose is to inculcate humanitarian values, wisdom, compassion, courage, and reliability in learners. Academic excellence along with active participation in co-curricular activities complete the process of education and it gives me immense pleasure that *Gajera Group of Schools* is progressing in all its endeavors toward the overall development of the learners. I am sure that the Gajerian learners will become leaders in their chosen fields and contribute positively towards the progress of our nation and humanity at large. Excellence does not happen by chance.

We at Gajera Group of schools believe in excellence as a system, and therefore all our activities are driven by the same belief. Keeping the same in mind the learners of the Gajera Group of schools are trained to be exceptional individuals with the right mix of values and leadership qualities instilled in them.

**The whole purpose of education is to turn mirrors into windows** "Education is the only path that can lead us to the light of knowledge and wisdom. It is the only force that can liberate mankind from ignorance and deliver us from gloom of hopelessness to the zenith of hope". I always dream of making education reach out to the people of remote areas who are deprived of quality education, at affordable fees. So that they can easily cope with the latest market's requirements as there is cut-throat competition, one needs to be better educated and prepared to be successful in one's life.

A good education educates a heart that exists in a body. As Swami Vivekananda says **Education is the manifestation of the perfection already in man. Humans are born with the perfection of mind, soul, and body.**
